

27.11.2014 AQUABOT

INFORMATION EVENT

You are cordially invited to the information event of the AQUABOT project – An Autonomous Underwater Robotic Visual Inspection System for Cyprus' Offshore Aquaculture Industry. The event will highlight the mission, objectives, and intermediate results of the project.

Due to the space limitation of our lab, please register early until 23.11.2014.

Sponsored by:

UNDERWATER ROBOTS FOR THE FUTURE

THE EVENT WILL INCLUDE:

- ✓ short presentations
- ✓ live demonstrations
- ✓ expert panel discussion

The attendance of the information event is possible only for registered participants.
